

INDEX

„Kombucha - Healthy beverage and natural remedy from the Far East“, 9th edition, by Günther W. Frank

You can download this index from www.kombu.de/engl-book-index.pdf

—A—

Absent for longer time..... 101
 Accumulation of its own metabolic products..... 85
 Acetic acid (CH₃COOH) 29; 32; **38**; 40; 41; 42; 55; 62; 64; 72; 75; 76; 77; 93; 94; 112
 Acetic acid bacteria/ Acetic bacteria/ Acetobacter 32; 63; 73; 78; 95; 99; 110
 Acetobacter ketogenum 145
 Acetobacter xylinum (Bacterium xylinum) ..38; 62; 79; 95; 105; 106; 145
 Aches..... *See Pains/aches*
 Acid... 16; 28; 29; 31; 32; 33; 36; 40; 41; 42; 48; 50; 51; 60; 62; 63; 64; 66; 68; 72; 74; 75; 76; 77; 78; 83; 93; 94; 97; 98; 112; 115; 116; 117; 124; 145; 146; 149
 - decreasing..... 98
 - increasing 98
 Acid degree (pH) *See pH value*
 Acid environment..... 97
 Acid flavour..... *See Taste*
 Acid rain..... 118
 Acid reaction..... 44
 Acid/alkali balance74; 113
 Acid/alkali problem42; 66
 Acidification ..31; 32; 34; 35; 41; 42; 47; 55; 69; 75; 76; 85; 87; 93; 97
 - cease..... 85
 Acidity..... 43; 44; 58; 83; 93; 98
 Acknowledgments..... 140
 9
 Activity/ Active effectiveness 34; 43; 89; 113
 Adaptability48; 71
 Add
 - alcohol.....32; 94; 95
 - ascorbic acid (Vitamin C) 48
 - cognac 32
 - fruit49; 53
 - lemon 32
 - port..... 32
 - raisins..... 49
 - rum..... 32
 - sherry 32
 - starter liquid (10%) **15**; 16; 17; 31; 32; 87
 - vinegar 31
 Addiction to the stimulation 52
 Adenine 28
 Aerobic.....62; 90

Aerteries, hardening..... 117
 Air..... 11; 16; 33; **34**; 35; 41; 48; 56; 59; 62; 93; 95; 99; 101 *See also Oxygen*
 - locked in the layer..... 33
 Air bubbles 87
 Airborne spores..... 93
 Airtight stoppers 35
 Alcohol.....32; 36; 40; 41; 42; 48; 62; 77; 78; 82; 94; 95; 99; 110; 143; 144; 145
 - add 32
 - content of Kombucha 29; 42; **82**; 95
 - preservative effect..... 78
 - psychological and physiological effect 82
 Alcoholic..... 82
 Aldehyde 98
 Alga/Algae..... 53; **54**; 55; 145
 Alien micro-organisms93; 94; 95; 97; 98
 Alkaline..... 44; 83; 90
 Altering of culture..... 25; 32; 70; **71**; 85
 Amino acids..... 67
 Anaemia 55
 Anaerobic (=fermentation)62; 63; 64; 90
 Animals 90
 Antagonism (vigorous bacterial antagonism) 95
 Antagonistic (hostile) effect46; 97
 Antibiotic/ Antibacterial/ Antimicrobial/ Antiseptic 21; 32; 34; 38; 43; 48; 51; 53; 54; 62; 76; 90; 95; 112; 113; 119; 145; 146
 - green tea 121
 - honey..... 71
 - acids.....31; 32
 - alcohol..... 78
 Anti-oxidant..... 48
 Apathogenic (harmless) bacteria..... 46
 Appearance..... *See Colour*
 Apple..... 49; 50; 53; 55; 83; 94
 Apple tea 55
 Application54; 111
 Aquarium..... 31
 Armenia (Yerevan)43; 53; 54
 Aroma..... 41; 44; 32; 83; 98
See also Taste and Flavour
 Arteries..... 108; 117
 Arteries, hardening 117
 Arteriosclerosis..... 77; 79; 111; 116
 Arthritis..... 116; 119; 146
 Arthrosis..... 55; 146
 Ascomycetes90; 91
 Ascorbic acid 48
 Asexual reproduction 90
 Asia 111
 Aspergillus repens 93
 Assimilation.....59; 61; 62
 At a glance**15**; **16**; **17**
 Athlete's foot..... 125
 Auricularia delicata..... 54
 Autolysis..... 85
 Autumn..... 39
 Axenic culture..... 105

—B—

Babushka 143
 Baby-culture *See Young culture*

Back pains 108
 Bact. Aceti Kuetzingianum..... 38
 Bact. Aceti Pasterianum 38
 Bact. Ascendens..... 98
 Bacteria ... 11; 16; 17; 30; 32; 34; 36; 38; 39; 49; 54; 61; 62; 71; 76; 78; 81; 83; 89; 90; 94; 95; 97; 102; 103; 105; 106; 145
 Bactericide/ Bactericidal ..29; 78; 94; 95
 Bacteriocidin..... 95
 Bacteriological cultures 55
 Bacteriology..... 105
 Bacteriostatic29; 71
 Bacterium coli commune..... 79
 Bacterium gluconicum 63; 105; 106; 145
 Bacterium xylinoides 105; 145
 Bacterium xylinum.....
See Acetobacter xylinum
 Baker's yeast
See Saccharomyces cerevisiae
 Bald patches grow over 108
 Balloon envelopes..... 104
 Baltic 7
 Bancha tea 18; 19; 20
 Barometer 51
 Basidiomycetes 90
 B-cells 121
 Beer..... 29; 82; 107
 Beet sugar 40
 Begin 86
 Beneficial effects- when do they become apparent?52; 115
 Benzol 147
 Berries..... 67
 Betamethasone..... 80
 Bible.....81; 95
 Bibliography128-139
 Bilberry leaves..... 25
 Bile..... 24
 Binary fission..... 90; 91; 92; 144
 Biochemical oxidation..... 62
See also Oxidation
 Bio-electronics..... 68
Biological metabolic processes..... 40
 Biological, living beverage 113
 Biologically active..... 88
 Bio-transformation 116
 Birch-leaf tea 149
 Bits.....67; 96
 Bitter oils..... 24
 Black bread..... *See Bread*
 Black tea..... 12; 15; **18**; **19**; 24; 28; 29; 30; 56; 72; 110; 144; 149
 - which sort?.....18; 19
 Blackberries..... 49
 Blackberry leaves..... 25
 Blackcurrant leaves..... 25
 Blackthorn 24
 Bladder.....21; 55
 Bladder stones 21
 Blade 144
 Blemishes on the skin 57
 Blend of tea 19
 Blobs of clear jelly 33
 Blood.....60; 126
 Blood cleansing.....55; 115
 Blood fat.....30; 126
 Blood-pressure..... 21; 55; 115; 117; 125

- Blood-vessels..... 21
 Bloodstream..... 51
 Blotches..... 21
 Blue light insect killer..... 100
 Boas and Ruth..... 81
 Bohemia 107
 Boletus 90
 Bond..... 118
 Bone cancer 127
 Bottle/ Bottling 16; 42; **46; 47; 48**; 88
 Bottle-traps..... 100
 Bottling jar 31
 Bottom..... 87
 Bottom layer 33
 Bowel cancer 22
 Bowel movements..... 126
 Bowels..... 63; 114; 115; 116; 117; 125
 Bran..... 50
 Brandy..... 94
 Brazil..... 53; 54; 55
 Bread..... 50; 60; 82; 91; 97; 106; 144
 Brittleness of the capillaries..... 21
 Bronchial tubes 55; 125
 Bronchitis..... 125
 Brown rot..... 91
 Brown wrinkled patches..... 84
 Brownish, rougher layer 33
 Bruker, Dr.9; 58; 59; 60; 63; 68; 70; 140
 Bubbles, foamy-looking..... 96
 Bubbles of carbonic acid . 41; 44; 45; 48;
 87; 96; 102
 Budding..... 91; 92; 145
 - bipolar..... 91
 - multipolar..... 91
 Budding inhibition 89
 Bud-like outgrowth 76
 Bulge upwards..... 96
 Burns..... 55
 Bursting of bottle 47
- C—
- C₂H₅OH (alcohol/ethanol) ... *See Alcohol*
 C₆H₁₂O₆ *See Glucose and Fructose*
 C₁₂H₂₂O₁₁..... *See Lactose and Maltose*
 C₆H₁₀O₅ *See Starch and Cellulose*
 C₃H₆O₃ *See Lactic acid*
 C₆H₁₂O₇ *See Gluconic acid*
 C₆H₁₀O₇ *See Glucuronic acid*
 Caesium..... 147
 Caffeine..... 19; 20; 28; 67
 Cainii grib 95
Calories **58**
 Cancer 20; 21; 22; 50; 63; 108; 117; 118;
 119; 121; 126; 127; 142; 143; 146;
 147; 148; 149; 150
 Candida *See Yeast cells - beneficial effect*
 Cane sugar 40
 Capillary vessels of the brain 116
 Capillary walls..... 21
 Caramel 66
 Carbohydrates..... 17; 59; 60; 61; 75
 Carbon (H)..... 32; 41; 49; 59; 62
 Carbon dioxide (CO₂) 16; 40; 45; 62;
 95; 96
 Carbon dioxide - inhibitory effect..... 95
 Carbon dioxide bubbles.....
See Bubbles of carbonic acid
- Carbonic acid (H₂CO₃) 33; 40; 41; 44;
 47; 48; 62; 68; 95; 96; 102; 110
 Carcinogenic effect (no) 117
 Cardiac vessels, hardening 116
 Carstens, Veronika, Dr..... 119
 Cartilage..... 146
 Casein..... 55
 Catalysation 62
 Cataract 108
 Cell body 85
 Cell membranes 112
 Cell nuclei 85
 Cell respiration 146
 Cell walls, regeneration 115
 Cellar..... 48; 101
 Cell-building..... 118
 Cells..... 113; 119; 124
 - resuscitation 119
 Cellulitis..... 54; 56
 Cellulose (C₆H₁₀O₅)..... 59; 103
 Centaury 24
 Centigrade *See Metric measures*
 Central nervous system 121
 Cereals 60
 Cerebral haemorrhage 21
 Ceylon tea..... 19
 CH₃COOH (acetic acid) . *See acetic acid*
 Cha..... 106
 Camomile 25; 29; 54; 57
 Chamomille 29
 Champignon de longue vie 107
 Chanterelle 90
 Charlatanism..... 112
 Cheerfulness..... 121
 Cheese-cloth 16
Chemical metabolic processes... 40; 41
 Cherries..... 49
 Chicken-pox..... 108
 Chickweed..... 25
 Children..... 24; 57
 China 12; 15; 19; 20; 107; 144; 145
 China tureen 31
 Chinese tea 29
 Chlorophyll..... 19; 145
 Cholesterol/ Cholesterin..... 30; 117; 118
 Choline..... 74
 Chondroitin-sulphuric acid..... 146
 Chop..... 57
 Chun Mee..... 18; 19
 Cilia tea filter 23
 Circulation..... 18
 Circumstances..... 11; 88
 Citric acid..... 62
 Citromyces..... 98
 Clasp 23; 24
 Clean container 42
 Cleanliness is essential **14**; 95
 Cleansing..... 125
 Clear..... *See Colour of the beverage*
 Climatic conditions 105
 Cloth..... 100
 Cloudy..... *See Colour of the beverage*
 Club-moss..... 25
 CO₂ (carbon dioxide, gas)
 *See Carbon dioxide*
 Coca-Cola 29
 Coffee..... 67
 Coffee filter paper..... 23
- Cognac (adding)..... 32
 Cold..... 83; 102
 Colibogen 50; 118; 126
 Colonies/ Colonies of cells 91; 104
 Colonies of cells..... 91
 Colour/ Appearance of the beverage
 - clean..... 68
 - clear 68; 83
 - cloudy 41; 46; 47; 48; 68; 83; 96; 98
 - dark brown 68
 - sparkling..... 42; 44
 - transparent..... 83
 - Yellow amber 44
 Colour/ Appearance of the culture
 - brown/brownish.. 17; 33; 84; 86; 89
 - bulging upwards 96
 - depends on the tea 89
 - dry..... 98
 - dusty, delicate..... 98
 - exhausted 85
 - gelatinous 39
 - green patch 93; 98
 - grey 89
 - grey-brown 144
 - jelly-like 47; 89; 98; 103; 144
 - like a jellyfish..... 41; 144
 - like a pancake..... 144
 - moribund..... 85
 - mouldy *See Mould*
 - mucilaginous 40
 - ouworn 84
 - peach-coloured..... 89
 - powdery skin 98
 - „rat’s tails“ 96
 reddish hue 44
 - size..... 11
 - slimy 39
 - smooth, shiny, light..... 33
 - streaky, jelly-like bits..... 47
 - streamers 96
 - thickness..... 87
 - thin and filmy layer..... 17
 - transparent..... 32; 89; 95
 - unsightly..... 84
 - whitish 89; 96; 98
 - whitish patches 96
 - yellowish-white 76
- Combucha..... 107; 111; 118
 Communalities..... *See Symbiosis*
 Community 28; *See also Symbiosis*
 Competitors 93
 Complaints of old age 115
 Component elements of the culture
 104; 105
 Composure..... 121
 Compound sugars..... 40
 Concentration..... 41
 Conjugated glucuronic acid 115; 116
 Conjugation 116
 Connective tissue 146
 Consecutive and simultaneous reactions
 62
 Conservation..... 93
 Consolidation of well-being..... 124
 Constipation..... 79; 108; 115; 117
 Constituents of the culture 104; 105; 106
 Constitution 51
 Container..... 14; 31; 33; 35; 40; 43

- size..... 88
 Contamination 30; 31; 32; 55; 93;
 94; 95; 98; 104 *See also*
Preservation/ Preservative effects
 Continues to work 47
 Cool down the tea 31; 47; 55
 Cool place..... 16; 42; 47; 48; 101
 Cork 34; 42; 47; 88
 Corns on the toes 124
 Cortisone 80
 Cosmetic.....54; 56; 57
 Cover the container ... 16; 34; **35**; 36; 56;
 95; 99; 101; 144
 Covers the surface..... 86
 Cranberry..... 49
 Cream.....54; 57
 Crohn's disease..... 47
 Crow's feet 57
Cultivation and propagation of the
culture 86
 Cultivation glass, separate..... 87
 Culture
 - darker, rougher - underneath 33
 - new 88; 98; *See also Young culture*
 - old.....33; 86; 88
 - several in one container88; 89
 - smooth, shiny, light - uppermost 33
 - young.....17; 33; 84; 88; 90; 98; 144
 Curdled milk..... 63
 Cure-all 113
 Cut in pieces56; 87; 88
 Cyclamate..... 66
 Cystitis 125
 Czechoslovakia/ Prague..... 76; 77; 107

—D—

Dandelion 25
 Danielova, L.T., Prof. 17; 32; 34; 37; 39;
 43; 48; 53; 54; 55; 65; 89; 95; 105;
 140
 Darkness/ Dark place..... 16; 36; 83; 145
 Daughter cell 91
 Daylight..... 37
 Dead.....102; 103;
See also Dying of the culture
 Dead cells..... 96
 Decomposition 83
 Deep-freezing the culture83; **102**
 Defense capacity 119
 Degeneration/degenerate.....73; 85
 Dehydration59; 62
 Delay/ Delayed activity101; 103
 Density of micro-organisms..... 89
 Depression..... 121; 125
 De-sensitizing 52
 Deterioration of the beverage 86
 Detoxicating 112
 Detoxification/ Detoxifying effect... 112;
 113; 115; 118; 119; 124; 127; 146;
 147
 Dextrose*See Glucose*
 Dextrgyral.....145; 146
 D-fructose..... 60
 D-glucose..... 60
 Diabetes/ Diabetic.....55; 63; 64; **73**; **74**;
75; **76**; 108; 117
 Diagram fermentation process 41

Diarrhoea..... 108
 Dibenzofurane..... 146
 Dietary/ Dietetic74; 116
 Difficulties..... 93; *See also Problems*
 Digestion is normalized.....50; 51; 116;
 117; 126
 Digestive system.....50; 60
 Dilute48; 73
 Diplococci..... 95
 Dirt..... 56
 Dirty working..... 85
 Disaccharides..... 40; 59; 60; 73
 Disadvantages of herbal tea..... 28-30
 Discard old culture.....17; 33
 Disease bacteria 89
 Disease invaders 121
 Diseases..... 55; 56; 57; *See also Illness*
 Disruptive products..... 119
 Dissimilation61; 62
 Dissolve..... 40
 Distress..... 121
 Diuretic in oedema..... 111
 Division.....90; 103
 Dizziness 116; 117
 Doctors12; 112; 115; 116; 126; 147; 148
Documentation 114-119
Documentary evidence 142-150
 Dogmatic 51
 Dosage..... **50**; **51**; **52**
 Doubling..... 103
Drawing off and bottling..... 46-49
 Dried preparation..... 104
 Drink48; 57
 - after a meal..... 17
 - after evening meal 50
 - after midday meal 50
 - as a refreshment..... 56
 - before breakfast 51
 - before meals 57
 - don't stop 57
 - how much?16; **50**; **51**; **52**; 114
 - interval theory..... 52
 - on a partly empty stomach..... 51
 - on an empty stomach..... 17; 50; 51
 - over an extended period of time . 52
 - perspire 125
 - to slim54; 56; 57
 - warm feeling..... 125
 - when?.....50; 57
 Drops (extract).....*See Kombucha drops*
 Drosophilla98; 99
 Drugs..... 112
 Dry (Conservation)..... 93
 Drying the culture **104**
 Dust..... 16; 35; 56; 57; 93
 Dying of the culture .. **44**; 56; 71; 73; 83;
